
Old Testament Hebrew Vocabulary

Jonathan T. Pennington

Old Testament Hebrew Vocabulary has been developed to help students learn and review biblical Hebrew vocabulary. While there are other tools available, this project is unique because it combines the printed word with the spoken word. This enables the student to engage the material in a more effective way, through multisensory learning.

Many students who come to biblical Hebrew will have also learned some Koine Greek. In both instances, the hard work of vocabulary learning is essential for efficient reading and use of the biblical texts. In the case of Greek, many words have recognizable cognates in English. With Hebrew, however, this is less often the case. Therefore, a ready knowledge of Hebrew vocabulary is all the more important to effectively read and study the Hebrew Bible.

In the introduction to my *New Testament Greek Vocabulary* (Zondervan, 2001), I offered a few tips for maximizing the time spent in vocabulary study:

- ❖ Use all the senses. Our retention of information grows exponentially when we use all of our senses. Using this program to hear and pronounce the words is another way to greatly increase learning. The student will do well to also write out the words he or she is trying to learn.
- ❖ Repetition. Repetition. Repetition. When learning a musical instrument, it is far superior to play one's scales for fifteen minutes

a day than to play for three hours on Saturday. So it is with vocabulary. Using this booklet and the audio program regularly – even five minutes per day – will eventually make these words second nature.

- ❖ Be consistent. In learning a new word, be careful to always pronounce the sounds correctly and to emphasize the correct syllable. Consistency here will save you much time and effort.

Using This Program

Old Testament Hebrew Vocabulary consists of all the words that occur in the Masoretic Text of the Hebrew Bible twenty times or more. Also included are proper names that occur one hundred times or more. All the words are broken into groups by frequency, or how often they appear in the text. Within each group the words are alphabetized in Hebrew order.

This arrangement is designed to facilitate the “word frequency count” method of learning. This is a logical and efficient way to learn vocabulary, as more common words are learned before less common ones. This audio program serves the needs of both first- and second-year students, as well as anyone desiring to review and maintain their vocabulary.

It is important to note that the glosses (definitions) given for each Hebrew word are not the only possible translations. Words are delightfully flexible, especially across time and genre. The glosses given here are meant as the “first-try” in translating and will generally give the student a good working definition. For more options and more detailed study, one should always consult a standard lexicon. The glosses used here are based in the first instance on the lexical work of Miles Van Pelt and Gary Pratico in their *Vocabulary Guide for Biblical Hebrew* (Zondervan, 2003), though they will vary at times and will often be condensed.

Acknowledgments

This project came into being at the initiative of my editor, Verlyn Verbrugge. It has been a great pleasure to work with Verlyn on several projects over the last couple of years. I am thankful for his expertise, efficiency, and kindness.

Also, great thanks go to recording engineer, Jeff Bowden. Jeff's talents in the recording booth and his enthusiasm for the projects are greatly appreciated.

I would be remiss not to acknowledge that the bulk of the preparatory work for this project was done through the skill and diligence of Miles Van Pelt. I gladly acknowledge his greater knowledge of Hebrew than mine and appreciate his labors through many editorial revisions and hours of recording! Any errors remain mine.

About the Author

Jonathan T. Pennington is a Ph.D. student in New Testament Studies at the University of St. Andrews, Scotland. For five years he served as Associate Pastor at the Evangelical Free Church of Mt. Morris, Illinois. He attended Trinity Evangelical Divinity School and was for two years a NT Teaching Fellow. He is the author of *New Testament Greek Vocabulary* (Zondervan, 2001), *Readings in the Greek New Testament* (Zondervan, 2003), and co-author of *The Elements of NT Greek with CD's and Syntax Lists* with J. W. Wenham and Norman H. Young (Cambridge University Press, 2001).

Old Testament Hebrew Vocabulary Words

Words that occur more than 1,000 times

(Disk 1, Track 3)

אָב	father, ancestor	הַ	the
אִישׁ	man, husband	הוּא	(3ms) he, it; (ms) that
אֶל-	to, toward, into	הָיָה	to be, become
אֱלֹהִים	God, gods	הָלַךְ	to go, walk
